SUPER CIGARETTE

Cigarette, whose name is synonymous with high-performance racing powerboats, has launched their eagerly anticipated Super Yacht division with their 55-foot model, the biggest Cigarette ever. "We did not 'just' want to build a yacht; we wanted to build one that would be worthy of the Cigarette name," says Cigarette Racing Team CEO, Skip Braver. "Once you board the Super Yacht, you'll see why we are so proud of the end result. This is the natural evolution of the Cigarette brand." Additional models in the 75- and 105-foot range are ultimately expected.

PEACEFUL PLACE

Nestled in the Turks & Caicos is a bit of architectural perfection that offers the latest in Aman Resorts lifestyle amenities while blending seamlessly with the dramatic natural scenery. Think butlers, private chefs and a staff of 250 to see to all an owner's needs. The environmentally-sensitive development, called Amanara, or "peaceful place," is on the secluded western end of the Providenciales. The site is surrounded by the Northwest Point Marine National Park and an 18,000-acre nature preserve on one side and gleaming white sand beaches, clear turquoise water and untouched coral reefs on the other. A four-bedroom villa goes for \$12 million. For more information, go to AmanaraVillas.com.

YACHT FAME

"For marriage to be a success, every man and woman should have his and her own bathroom, even on board their yacht. The end."

– Catherine Zeta-Jones

"Before filming of *Dead Calm* began, I took sailing lessons from the owner of the yacht we used. During the storm sequences near the end of the film, I'm actually piloting the yacht. It was wonderful."

– Nicole Kidman

"Acting is like yachting. You have to keep this character like a boat skimming across the surface (to keep it from becoming heavy drama)."

– Matthew McConaughey
